

Six Sonates pour violon seul - Six Sonatas for Violin Solo, Op. 27

Each of Ysaye's Sonatas was dedicated to one of his contemporaries: Joseph Szigeti, Jacques Thibaud, George Enescu, Fritz Kreisler, Mathieu Crickboom, and Manuel Quiroga. Having heard Szigeti perform Bach's Sonata in G minor, Ysaye was inspired to compose works that represent the evolution of techniques and expressions of his time. As he claimed, I have played everything from Bach to Debussy, for real art should be international. In this set, he used prominent characteristics of early 20th-century music, such as whole-tone scales, dissonances, and quarter tones. Ysaye also employed virtuoso bow and left hand techniques throughout, for he believed that at the present day the tools of violin mastery, of expression, technique, mechanism, are far more necessary than in days gone by. In fact they are indispensable, if the spirit is to express itself without restraint. He recurrently warns violinists that they should never forget to play instead of becoming preoccupied with technical elements; a violin master must be a violinist, a thinker, a poet, a human being, he must have known hope, love, passion and despair, he must have run the gamut of the emotions in order to express them all in his playing. Ysaye represented a synthesis of the qualities of Franco-Belgian violin playing before virtuosity became an end in itself. To Ysaye, virtuosity was indispensable (he admired Paganini and Vieuxtemps), but as a means to re-create the music, rather than mere exhibitionism (in this he agreed with Busoni, with whom he shared a liking for transcriptions). This ideal, reinforced by his choice of high quality works for his concerts (eloquently illustrated in the programs of the Ysaye Quartet and the Ysaye-Pugno duo), was not wholly realized by the next generation: Thibaud, Kreisler, Enescu and others were influenced to some extent, but between the wars their recitals only rarely equalled those of Ysaye in

choice of programs and in their interpretation.
