

# Health Education: Creating Strategies For School & Community Health

The skills necessary to plan and deliver efficient health education programs are fundamentally the same, whether its in a classroom, workplace, hospital, or community. Health Education: Creating Strategies for School & Community Health, Third Edition provides the tools to make appropriate programming decisions based on the needs of the clients and the educational settings. It encourages the systematic development of sound, effective, and appropriate presentation methods and demonstrates the evolving state of health education. The philosophy presented in this text is based on the premise that the core of health education is the process of health education. It is a must-have resource for health education methods courses.
