

Lusam III: The Dragon Mage Wars (Volume 3)

After accidentally discovering the possible existence of a second Guardian book, Lusam and his party are remorselessly hunted high into the Elveen mountains by the Empire agents, who are intent on killing or capturing them. What they discover there, may very well change the balance of power in their favour against the Thule Empire. But their discovery will count for nothing, if they cannot reach Lamuria in time to try and stop the massive invasion force sent by Lord Zelroth, who is intent on destroying their capital, and stealing The High Temples secrets for himself. Lusam inadvertently discovers a long guarded secret of Lord Zelroths, one that will profoundly change his own life forever, and force him to take action that he may very well not be prepared for.
