

The World After Narora: Retro-key Bk. 1

This is a marvellous modern fantasy novel. This is the first book of the series waiting to become a new colossal film. About a thousand years ago when Newmanity was created with the help of the Planet Nelum and its inhabitants, a deadly secret was dropped into the endless depths of the Mariana Trench. Now the Universal Judge has to prevent its discovery and stop the secret alien society from destroying the Third Planet again.
